

# Pro bono - a way to make a difference

Carl Schwieler

Partner, Head of Banking and  
Finance, Sweden & Pro Bono  
Director

We at DLA Piper want to influence the world around us in a positive direction - both locally and globally. As a major actor and not least as a legal advisor, we have a responsibility and an opportunity to influence and drive issues that are important, not only for our clients and ourselves, but also for society at large. One way to influence and make a difference is through our Pro Bono work.

We are proud partners to a number of organizations and projects where we contribute - and receive - knowledge, experience and commitment. Below you will find some of our partners.

- UNICEF
- IRC (International Rescue Committee)
- The French Lawyers Alliance for Human Rights
- IVF and IUI Center for Reproductive rights
- Women's Foundation
- Terre de Hommes
- Concern Worldwide
- Transparency International
