We are very proud to see our partners Erik Björkeson, Lawyer, Partner and Head of Tax together with Karin Attorps, Lawyer and Partner being recognized in the Legal Media Group *Expert Guides* 14th edition Tax Guide.

Expert Guides has been researching the world's legal market for almost 30 years and has become one of the most trusted resources for international buyers of legal services.

The Tax Guide is the leading international publication in the field and lists the world's top Tax advisers across 76 jurisdictions. It gives tax executives the most comprehensive information about the market for tax advice.

For this Guide, the team at Expert Guides approached business practitioners, clients and industry experts across the world and invited them to nominate individuals to be recognized as leading tax advisers. They asked for reasoning for all nominations and sought additional background information as to why an individual should be included in the list.

This included expertise, technical knowledge, reputation, innovation and contribution to their practice area's development.

For the 14th edition, they surveyed more than 6,000 practitioners and identified 1,578 leaders who appeared in the final guide.

Expert Guides has over 198,735 site views per year. They have 77,272 thought leadership views on their website annually, and 47,580 individual profile views over past 12 month.
