DLA Piper has advised EQT Ventures on its financing of Hume AI Inc. ("Hume", www.hume.ai) in connection with the company's Series B round of \$50 million. EQT Ventures led the round with the participation of investors such as Union Square Ventures and LG Technology Ventures.

Hume is a startup and research lab building emotionally intelligent AI optimized for human well-being, based on a new form of multimodal generative AI that integrates large language models with expression measures.

DLA Piper's team consisted mainly of [Mikael Moreira](#), [Erik Rosberg](#), and [Gustav Säde](#) from DLA Piper in Sweden and [Cara Hupprich](#) and [Jeff Lehrer](#) from DLA Piper in the United States.
