

DLA Piper has advised EQT Ventures on its Series Seed investment in Syntetica

Mikael Moreira
Partner

EQT Ventures led the Series Seed investment round in Syntetica. Syntetica is a French textile recycling company that has developed a first of its kind technology dedicated to transforming nylon recycling.

Syntetica offers a new chemical process that depolymerises nylon blended fabrics - separating out and purifying nylon from elastane, cotton, and other fibres so they can be repurposed in the supply chain and crucially, avoid ending up in landfills.

Read more about Syntetica and the investment case [here](#).

The team from DLA Piper consisted mainly of [Mikael Moreira](#) and [Joacim Kanstedt](#) with a special thanks to Sébastien Pontillo and Thomas Maincent for excellent support.
