

# DLA Piper Sweden has assisted OX2 in the permitting process for the 174 MW Moholm Solar PV

Johan Forsling  
Partner, Lawyer

Kajsa Tiderman  
Senior Associate

DLA Piper Sweden has successfully assisted OX2 as counsel in the permitting process for the 174 MW Moholm Solar PV. The Solar PV plant, located in Töreboda Municipality, is expected to produce approximately 190 GWh of electricity annually, making it one of the largest Solar PV plants in Sweden to date.

We are grateful for the mandate and the excellent collaboration with OX2 on this matter.

DLA Piper's team was led by Johan Forsling and Kajsa Tiderman.
